

# Weigh Tape

FACT SHEET

Measure your horse's weight

1

Pass the Weigh Tape around the horse's girth, immediately behind the elbow and withers or just behind the withers and front legs. Always use the same weigh tape and measure in the same place.

*This measurement is only an estimate of your horse's weight.*

2

Mark the measurement in your chart. Don't forget to check your horse's weight regularly.

You can also use the tape to measure your horse's height

Measure your horse's height from the hoof to the top of the withers. Mark this measurement on your chart to keep a record of it.
